Digital-photography

As digital-photography, the photography becomes summarizing with help of a digital camera or the work with digitized pictures as well as this itself at it subsequent processing of electronic picture-treatment as well as digital presentation and archive marks.

Electronic picture-treatment - picture-change of video-technology

The digital-photography deviates in numerous aspects of the classic opto chemical of based photography and resembles, especially with the picture-change, on the one hand the video-technology, on the other hand the picture-giving procedures.

See to this the concept-explanations of www.wikipedia.org

Picture-data base from the areas architecture, landscape, business, sport, technology etc.

See under the following picture-data base, after areas, selective photography, arranged! The pictures stand under copyright! You can acquire the photos by purchase, however! Take [contact](#) to the agency for [builds & design](#) on!
